

# Zywave Group Benefits Quoting API for Insurance Agents

**170+** Data  
Operations & Carrier  
Team Members

Instant quoting  
with **55,000+** plans

plans from  
**590+** carriers

**Coast-to-coast**  
coverage

## Expand Your Quoting Processes and Workflows with Instant Data

Zywave is leading the employee benefits quoting space with an unrivaled carrier network and a growing library of medical ACA, medical level-funded, dental, and vision plans. Get the cloud-based data you need to fit your workflows and processes needs without obtaining new software.

By using your existing census data and/or enrollment data that is already living in your tech stack and adding the Zywave API for Employee Benefits, you can automate employee benefit quoting within your platform.

## Data that's Accurate and Drives Your Efficiency

Zywave Group Benefits Quoting API provides carefully sourced, accurate, and useable carrier data delivered frictionlessly into your workflows.

Zywave has a dedicated **170+ data operations and carrier team** working **directly with carriers** to deliver exceptional data and expand the API library.

## On-the-Spot Quotes to Fit Your Needs

The Group Benefits Quoting API provides instant quoting capabilities with over **55,000 plans from 590+ carriers** without the need for new software. By utilizing Zywave's API, great ROI is delivered by eliminating data entry errors, effort to update carrier data, and downtime to validate data.
