Simplify Rating

ClarionDoor RQBI empowers insurers to launch and manage rating, quoting, binding and issuance with unmatched speed. Its API-first, cloud-native design allows for seamless integration and rapid configuration—no heavy IT lift required. With flexible workflows and real-time updates, carriers can respond to market changes in days, not months.

Expand Distribution

Zywave connects carriers to over 15,000 agencies generating more than 100 million quotes annually. By joining our carrier network, your products become instantly accessible to a high-intent audience actively seeking coverage—right when decisions are being made. This broad reach helps you scale distribution without added complexity.

Compete with Clarity

Market Basket delivers deep competitive intelligence from over 28 million anonymized personal lines quotes each year. Use the data to understand quote competitiveness, consumer preferences, geographic performance and conversion drivers. These insights guide smarter product development, pricing strategies and market positioning—turning data into a strategic advantage.
