The Complete Solution for Personal Lines Growth

Where Agency Management Meets Comparative Rating Power

Quote. Bind. Manage. All in One Place.

Personal lines agencies are competing in a fast-paced market where speed and accuracy determine success. But manual data entry between quoting and Agency Management Systems (AMS) creates bottlenecks, errors, and wasted time that slows teams down.

The two-way integration between Partner Platform and TurboRater solves this challenge. Delivering seamless data flow between TurboRater, the industry-leading personal lines quoting solution, and Partner Platform, a recognized leader in Agency Management Systems, empowering the modern insurance agency to elevate performance and win more business.

Flexibility with Unified Technology

Supercharge Your Quoting

Add industry-leading comparative rating to your agency management workflows. Access real-time rates from 200+ carriers, quote multiple carriers simultaneously, and win more business with competitive pricing, all while policy details flow seamlessly back into Partner Platform for accounting, customer messaging, and client management.

TURBORATER
Quote & Bind

Automatic Data Transfer

PARTNER PLATFORM
Manage & Review

Eliminate Post-Quote Work

Keep the powerful comparative rating you rely on while adding comprehensive agency management capabilities. Once you bind a policy in TurboRater, everything flows seamlessly into Partner Platform with a single click. Client details, coverage information, and premium data all transfer automatically, eliminating redundant entries and double work and saving time and resources.

Proven Benefits for All Agencies

Accelerate Workflow

From quote to bound policy in minutes. Coverage details, client data, and premium information sync automatically, freeing teams to focus on selling instead of administrative tasks.

Reduce Errors & E&O Exposure

Manual re-entry creates mistakes. Automation creates accuracy. Protect your agency while improving efficiency with seamless data transfer, giving you the best of both worlds in one unified workflow.

Complete Data Synchronization

Automatically transfers complete home and auto policy details, coverage information and limits, client and insured data, premium and payment details, and policy effective dates. Convert prospects to clients instantly when policies bind, then manage the full client lifecycle in Partner Platform.
